

Become a Data Guru in 5 Easy Steps

You – yes, you! – have phenomenal data and analytics power at your fingertips right now.

Even if you don't have any formal training, all you need is a desire to understand your data and learn how to use it to take action.

STEP 1

Sign up for the IBM Cognos Analytics free trial.

STEP 2

Follow the simple instructions for loading data.

STEP 3

Ask the AI Assistant questions using regular language and get answers you can understand.

STEP 4

Make a breakthrough using powerful data exploration tools.

STEP 5

Show off your new smarts with visualizations and dashboards that will make your boss take notice.

**Congratulations –
you're now the go-to
data guru on your team.**
